Work Experience

- **Cleo (Domain: Supply Chain)**: Principal Software Engineer (09/2024 - Present)
 - Developed Anomaly Detection in Supply Chain using MCP servers, MCP Clients, LLMs and GenAI which improved anomaly detection by 60%-85% saving ~\$150K / year.
 - Developed massively scalable audit log system that can store 360 TB of logs/year and can handle 1.5 billion log entries/day, using GenAI, RAG and MCP Servers, saving ~\$250K / year.
- **DeepIntent (Domain: AdTech)**: Lead Software Engineer (10/2018 - 09/2024)
 - Developed Co-Pilot to improve campaign delivery by 32%, saving \$1 Million spent on campaigns.
 - Developed Anomaly detection tool in house saving \$200,000 / year using GenAI, RAG & Multi Model MCP servers.
 - Developed API Gateway in Golang which was 4 times faster and consumed 1/3rd of memory than earlier gateway.
- **OneDirect (Domain: Customer Experience)**: SDE - 2 (05/2017 - 10/2018)
 - Developed multiple micro-services & built new CX tools.
 - Optimized DB storage by 10%, thereby saving \$1500 / year.
 - Added multiple social media publishing tools.
- **Quikr (Domain: Online Marketplace) (acquired CommonFloor)** - SDE -2 (12/2014 - 05/2017)
 - Worked on large scale product like Quikr Jobs at 2,50,000 RPS.
 - Added feature to record called candidate.
- **CommonFloor (Domain: Real Estate)**- SDE - 1 (12/2014 - 05/2017)
 - Enhanced groups communication by adding chat feature.
- **IDrive (Domain: Cloud)** - SDE - 1 (06/2013 - 12/2014)
 - Worked on Google Glass to store captured image, video and audio to IDrive.
 - Improved page load time by 80%.
- **Persistent** - SDE 1 (06/2010 - 06/2011)

Education

- Master of Technology
 - Computer Science & Engineering
 - National Institute of Technology, Karnaraka
 - 06/2011 to 06/2013
- Bachelor of Engineering
 - Computer Engineering
 - Pune Institute of Computer Technology
 - 06/2006 to 06/2010

Skills

- | | |
|-------------------------|------------------|
| • Data Structure | • Java |
| • Algorithm | • Spring-Boot |
| • System Design | • Golang |
| • System Architecture | • MySQL |
| • LLM, GenAI, RAG | • MongoDB |
| • MCP Servers | • PostgreSQL |
| • Docker & Kubernetes | • GraphQL & REST |
| • Terraform | • Redis |
| • DataDog | • Kafka |
| • Graphana & Prometheus | • Apache Airflow |
| | • AWS & GCP |

Achievements

- 1100+ problems solved on LeetCode.
- 3 Silver and 2 Bronze medals on HackerRank.
- Various awards in office.

Hobbies

- Body-building
- Swimming
